PERSONAL INFORMATION

Date of Birth:
13/10/2006

EDUCATION

Bina Nusantara University — Computer Science/ Cyber Security *2024 – Present*
GPA: **3.75 / 4.00**
Relevant Courses for Cyber Security: [1] Algorithm and Programming, [2] Computer Networks, [3] Mobile Penetration Testing, [4] Server and Network Administration, [5] Software Security, [6] Cyber Law, [7] Software Engineering

SMAK Kolese Santo Yusup Malang (High School) — Science Major *2021 – 2024*
Enrolled in Science Major Class from 2021 – 2024. Graduated year 2024

TECHNICAL SKILLS

- Programming/Scripting: **C, C++, Basic Python, Basic PHP, Basic Java**
- Networking & Security Tools: **JADX GUI, Basic Burp Suite, APKTool, Frida**
- Operating Systems: **Windows, MAC OS**
- Other Tools/Platforms: **Docker, Git, Android Studio, Virtual Studio Code**

SOFT SKILLS

- Teamwork, Communication, Adaptability, Problem-Solving, Critical Thinking, Leadership

PROJECTS / EXPERIENCE

Blood Connect — Bina Nusantara University *2026*
- For the Blood Connect project, our team designed the application's design system to bridge the gap between patients, donors, and hospitals regarding blood stock shortages.
- Utilized Git, VS Code, and MySQL for development.

Penetration Testing Agoda — Bina Nusantara University *2026*
- My group conducted a mobile penetration test on a prominent travel agency application. Successfully identified critical security gaps, including exposed database structures, vulnerable source code configurations (e.g., allowBackup=true), and hardcoded API keys in plain text. Utilized JADX-GUI, APKTool, Android Studio (AVD), and SQLite for reverse engineering and analysis.

Android Log Analysis using LLM — Bina Nusantara University *2026*
- Collaborated in a team to develop an Android Logcat analysis tool powered by the LLaMA Large Language Model (LLM). Engineered the system to automate log reading and analysis, effectively eliminating the inefficiencies of manual debugging and streamlining the log interpretation process.

Grit, All-in-One Fitness App (UI/UX Design) — Technoday 2025, Bina Nusantara University 2025 *2025*

- Designed an all-in-one fitness app prototype in Figma combining activity tracking, workout community, interactive coaching, and sports event ticketing to address fragmented fitness apps.
- Conducted a user survey (32 respondents) and interview to validate needs; 100% showed interest in an all-in-one solution. Produced user personas, user flows, information architecture, and low- to high-fidelity prototypes.

SENTRA, AI Sentiment Analysis & Crisis Detection (PKM-KC Proposal) — Bina Nusantara University 2025 *2025*

- Co-authored a PKM-KC proposal for SENTRA, an NLP and deep learning platform that analyzes Indonesian social media comments (Instagram, TikTok, YouTube, X) for sentiment and digital crisis detection, with a real-time dashboard and LLM-generated summaries.
- Collected and built the training dataset using Python web scraping (BeautifulSoup, Selenium) from social media comments, Google Reviews, and marketplace reviews.

Tech Seminar Project Leader - GDGoC *2026*

- Led the planning and execution of a hands-on tech seminar teaching an AI-assisted full-stack development workflow: UI design with Google Stitch, design handoff in Figma, and implementation in VS Code with AI coding tools.
- Coordinated the committee, event schedule, and learning materials to deliver a practical, end-to-end tutorial for participants.

Manager Product and Curriculum GDGoC BINUS Malang 2025 - *2026*

- Designed and structured the annual curriculum and learning roadmap for GDGoC members across technology tracks.
- Planned and coordinated recurring chapter events and learning sessions aligned with the curriculum.
- Led the Product & Curriculum core team throughout the program year, overseeing task delegation and delivery.

ACHIEVEMENTS / CERTIFICATIONS

- Cisco Networking Academy – **Introduction to Cybersecurity**
- Bina Nusantara Computer Club (BNCC) Certifications – **Back-end Development Class**
- **ENGLISH FOR PROFESSIONAL OFFICE (V2) (CEFR C1.2) –** Beelingua Certifications (by Bina Nusantara University)
- **SMTP (Security Manpower Training Program) Indonesia 2026 by Inkor –** Cyber Security Training Certification

LANGUAGES

- **Bahasa Indonesia** — Native
- **English** — Intermediate
